PROFESSIONAL EXPERIENCE

Technical Account Manager, Yardi Systems,
Associate Technical Account Manager
Canada(Toronto)

August 2024 - Present

- **Maintained 100% retention** across a \$1M+ client portfolio by partnering with C-suite and Finance leaders to build **roadmaps** and run quarterly business reviews that drove consistent satisfaction and software performance
- Cut deployment time by 40% and ensured seamless ongoing operations across Yardi's full product suite by owning **end-to-end implementation, upgrades, and cross-functional launch** planning by overseeing capacity management, go-live risk reduction, and client continuity across cloud-hosted databases and webshares.
- **Delivered a 98% client satisfaction score** at YASC 2025 by pioneering and live-implementing a new data capture process for Knowledge Central, leading the team from concept to successful launch
- Resolved complex financial discrepancies including **Commercial Recoveries**, Intercompany and post-month billing by leveraging deep SQL and Voyager expertise to investigate and reconcile client data across the platform
- **Cut reporting turnaround by 50%** between development and client teams by building customized SQL financial reports with token-based dynamic queries.

Product Manager, Cohere,
Canada(Toronto)

January 2024 - April 2024

- **Drove a product from 0→1 in 3 months by owning the full agile lifecycle** by aligning strategic vision with market demands and customer feedback, managing the product roadmap, and leading weekly sprints across Notion, Jira, and Asana to track progress and deliverables.
- **Drove 37% product adoption growth** by designing and launching Co:mpare, a SaaS tool that benchmarks AI model accuracy over time
- **Improved model evaluation reliability** by engineering prompts and manipulating preambles to reduce assessment variance and sharpen accuracy benchmarking
- Outperformed 127 competing showcases across 3 campuses to win the Best Product award at Humber's Capstone Project showcase

Enterprise Systems Support Analyst - Intern, DREAM REIT,
Canada (Toronto)

April 2023 – August 2024

- **Minimized business disruption during complex ERP integrations** (JDE, Coupa, Boomi) by driving agile sprints, UAT strategy sessions, and partnering with Business Analysts to proactively surface and resolve integration challenges
- Designed a **purchase order analytics dashboard** across Dream's full property portfolio, surfacing committed spend vs. budget, vendor concentration, and cost-centre variances enabling Finance to make faster, more informed procurement decisions and driving a 24% increase in paid revenue.
- **Drove 50% increase in Coupa adoption** by conducting internal market analysis on user satisfaction gaps and developing a targeted product roadmap to improve the end-to-end user experience
- **Increased paid revenue by 24%** by gathering requirements across stakeholders and SMEs to design and deliver an analytical dashboard that surfaced actionable insights from the company's financial statements
- **Cut software ticket response time by 35%** by streamlining resolution workflows across integration issues, bug fixes, and platform solutions through ServiceNow

Community Technology Lead, WeWork,

Community Technology Associate

Community Associate

Singapore, Malaysia, Australia (Perth)

February 2019 – August 2022

- **Generated USD 90,000 YTD in revenue** by gathering requirements and delivering tailored IT customization projects aligned to business needs through structured change management
- **Elevated e-NPS by 5–10% in 3 months** by leading HR and collaboration initiatives across the Pacific region that measurably improved productivity and inter-country engagement at WeWork
- **Saved USD 15,000/year** by conducting operational analysis on building infrastructure and leading a cost-saving initiative that renegotiated and optimized internet subscription spend
- **Improved Wi-Fi connectivity across the APAC region** by leading a cross-functional project with US and EMEA teams by owning readiness assessments, stakeholder management, planning, execution, and sustainment end-to-end
- **Exceeded KPI targets by generating USD 150,000 in revenue** across sales, alternative sources, and real estate within 6 months, maximizing budget allocation efficiency

Technical Expert, Apple Inc.,

Technical Specialist

United States of America (Pennsylvania)

October 2017–August 2018

- **Boosted customer satisfaction by 20%** across 500+ appointments by diagnosing and resolving hardware and software issues with speed and precision
- **Acknowledged, aligned and assured** customers to maintain a good relationship and protect the company's image
